

# OCR PAC Comparison with competitors

Prepared by Modulo Software

OCR PAC is unique for Sage ACCPAC ERP. There are no competing products which capture Accounts Payable Invoice data and integrate directly with Sage Accpac ERP.

There are non Accpac invoice capture solutions but these use messy data imports not Accpac business and tax logic, are not developed using the Accpac SDK and do not integrate directly with original Accpac screens.

	Other systems	OCR PAC
Sage ACCPAC ERP compatible	x	✓
Uses Accpac Software Development Kit (SDK)	x	✓
Uses ACCPAC User security	x	✓
Integrates with original ACCPAC Screens	x	✓
Uses ACCPAC business and tax logic for invoice capture (not external file import)	x	✓
Stores and retrieves documents and files against Accpac transactions	x	✓*
Integrates with Sage Accpac ERP "Transaction Analysis & Opt.Field Creator"	x	✓
Cost	\$50K plus	Under \$3K (1 user)

\* Using the OCR PAC/ elmagePac bundle. elmagePac provides electronic transaction image storage and retrieval for Sage Accpac ERP and is available bundled with OCR PAC for a total document management solution.
